ABOUT ME

I am a Software Engineer with two years of experience in development. I am capable of overcoming complex issues by consistently identifying and providing the technological needs of companies through innovation. I am able to create websites and mobile apps, make APIs/RestAPIs, create databases, troubleshoot issues, and implement new features based on user feedback.

WORK EXPERIENCE

Front-end Intern at Dynamic Developers, RYK, Punjab, Pakistan
2021-2022

- Delivered responsive, cross browser, accessible and optimized websites with fast response time.
- Produced stunning visual elements of web applications by translating design into code while producing high quality optimized images and code.
- Design front-end UI using HTML5, CSS3, and modern JavaScript library React

EDUCATION
